

UK ETS Authority:

Expanding the ETS to the energy from waste and waste incineration

Consultation:

**Submission from the Agriculture and Horticulture Development Board
(AHDB)**

1 August 2024

AHDB

AHDB is a statutory levy board funded by farmers and others in the supply chain. Its purpose is to be a critical enabler, to positively influence outcomes, allowing farmers and others in the supply chain to be competitive, successful and share good practice. It equips levy payers with easy-to-use products, tools and services to help them make informed decisions and improve business performance. Established in 2008 and classified as a Non-Departmental Public Body (NDPB), AHDB supports the following industries: meat and livestock (Beef, Lamb and Pork) in England; Dairy in Great Britain; and Cereals and Oilseeds in the UK.

Consultation questions and AHDB's response

Question 2: Are there any technologies which we have not referenced in this section, and which would not be covered by the activities we have set out, which you think should be covered by our proposals? (Y/N) Please give further details to support your answer.

Yes. There has been no mention of anaerobic digestion in the consultation. We would like to enquire why this is the case. Was anaerobic digestion considered under this scope expansion? If anaerobic digestion was considered, what was the reasoning for excluding anaerobic digestion from the scope?
